GD&T Basics to Exhibit at IMTS 2024

East Building - Level 3 - Booth # 135938

Chicago, IL - GD&T Basics, a leading provider of GD&T training, has announced it will be an exhibitor at IMTS 2024, taking place September 9-14, 2024 at McCormick Place in Chicago. The company will occupy booth #134034 in the East Building Level 3, dedicated to Quality Assurance.

If you're passionate about the details of manufacturing, come meet the GD&T Basics team at booth # 134034. It's the perfect place for ongoing, in-depth conversations about engineering drawings and GD&T processes. Here are the top reasons why our booth is must-see:

Connect with Fellow GD&T Enthusiasts: The GD&T Basics booth is your networking hub to meet like-minded professionals eager to discuss all the nitty-gritty details of GD&T. Whether you're an expert in the field or just passionate about manufacturing, you'll find good company here.

Bring Your Parts and Drawings: Have a challenging component or confusing blueprint? Bring them along! Expert instructors from GD&T Basics will be at the booth ready to dive in and discuss the best practices for your specific queries about parts, designs, and tolerancing.

Free Educational Resources: Who doesn't love free stuff? Drop by for free GD&T wall charts,

handy for referencing key concepts at a glance, and other awesome giveaways that make technical learning fun and accessible.

Bridge the Inspection Gap: Explore discussions on how to effectively translate drawing requirements into practical inspection procedures. The team plans to focus on real-world applications that streamline and enhance the inspection process, increasing manufacturing efficiency and product quality.

By showcasing their deep knowledge and passion for all things GD&T, GD&T Basics aims to enhance attendees' understanding and application of this critical topic. Don't miss the opportunity to enhance your expertise and explore simple solutions in manufacturing clarity.
